## ENERGY WELLNESS = UNWELL → WELL → WELL BEING

**ENERGY** is an essence of Life through which we grow, able to work, fight against diseases and achieve health, wealth, prosperity & happiness.

**WELLNESS** means the state of being in good health that includes physical health, mental health, intellectual health, social health and spiritual health.

Human body is taking power from various available natural resources like Cosmic Rays, Sunlight, Breath, Foods and Earth.

The power must be positive in an adequate quantity to run our day - to - day life smoothly.

As we all know, less body power means to welcome diseases at any point of time.

Main Objective of **Energy Wellness** is to keep all human beings aware about their Potential Energy, Surround Energy and Fortune Energy for their Wellness.

### Potential Energy : Inner Strength

Inner Strength is associated with physical, emotional, mental, intellectual and spiritual strength directly related with 7 Chakras (Energy Source) located at subtle body.

### Surround Energy:

We are surrounded by many energies like positive (+ve) and negative (-ve) aura of individuals, vastu and products we use on daily basis. There are negative energies present in our surrounding like Infrared rays (IR), Ultraviolet Rays (UV), Radiation through new series of gadgets, mobile towers and most harmful is Geopathic Stress which comes from Earth.

### Fortune Energy:

We are using Pendulum Dowsing, Moderated Astrology Reading and Predictions, Suggest your Personalized **E Numeric Booklet** to understand your future in a better way.

**Energy Wellness measures all energies with modern scientific instrument and correct it if needed by suggesting suitable therapy to achieve maximum wellness.**

## GEOPATHIC STRESS & RADIATION

Geopathic Stress indicates the negative electromagnetic radiation from the Earth's surface, caused due to several factors, and is believed to be very harmful for the body, plant and animal.

A Natural Radiation happens mainly because of underground water veins and minerals (90%)

(i) Fault lines - earth grid systems.

(ii) Underground cavities or earth fractures.

Apart from natural earth's disturbances, man-made structures such as railways, motorway cuttings, bridges, tunnels, mines and underground bunkers can cause Geopathic Stress.

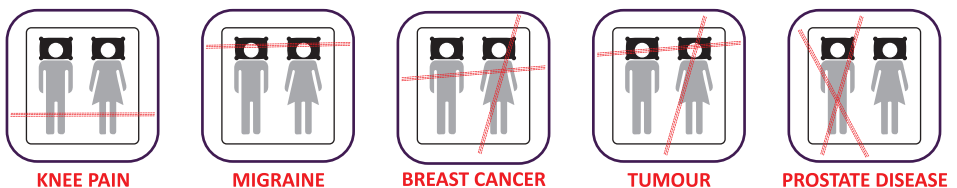

Geopathic Stress Zone is very harmful, if not corrected on time will harm us in following ways:

- Geopathic Stress disturbs our subtle body.
- Geopathic Stress drains your energy.
- Geopathic Stress interferes with healing process.
- Geopathic Stress offers restlessness and cranky moods.

Geopathic Stress lines may pass through some of common using area where we spend our continuous times like workplace, kitchens, play and study area (more than 3/4 hours) and of course our regular sleeping area (for 6 to 8 hrs).

**Sleeping on negative (-ve) lines of Geopathic Stress may affect not only your sleep but suffer from major diseases as shown below**

## WHY GEOPATHIC STRESS NEEDS TO BE NEUTRALIZED?

1. Mumbai is an island floating on water veins is main cause of negative energy called Geopathic Stress.
2. Where Geopathic Stress being corrected, healing process will be fast.
3. Vaastu remedy will work only if Geopathic Stress is corrected.
4. Our Chakra connects different vibrational rates of physical and subtle body. Geopathic Stress damages these Chakras and this leads to illness.
5. We also recommend to get test of harmful energies like Infrared (IR) and Ultraviolet (UV) rays, -ve / +ve energy and Brahmasthanam of your Vaastu.

**If you are not getting sound sleep you might be facing many problems in future as your pineal gland will not produce a sufficient hormones to protect from likely diseases.**

When you order our service to clear Geopathic stress, we will dowse the property before and after our treatment.

We confirm a property is affected by Geopathic stress before we act to neutralise its effects. Most homes and workplaces can be cleared of Geopathic Stress and its effects, either with a single visit.
